

# Hop Scotch

## Set Up

Using a pre-made hop scotch mat or hop scotch lines is the easiest, but you can always grab chalk and draw hop scotch lines similar to the image below. Line everyone up at the 1 square and follow the instructions below.

- 1 The first player hops up the court and back again, hopping in each space both up and back.
- 2 On the first trip, hop on the right foot.
- 3 On the second trip, hop on the left foot.
- 4 On the third trip, hop on alternating feet.
- 5 On the fourth trip, hop with both feet together.
- 6 A player hops in this sequence until they make a mistake, like hopping on a line or hopping on the wrong foot. When this happens, the player is out.
- 7 All players take turns hopping in the same way
- 8 The winner is the first player to finish the entire sequence of hops.

- \* You can also play the game with a marker (rock or bean bag)! Toss the marker on a section of the hop scotch board and have players hop up and back without hopping in the section that the marker landed in. Last one to foul out is the winner!
